

Medical Ultrasound Awareness Month 2020

October 1 - 31, 2020
Online

In honor of Medical Ultrasound Awareness Month, Canon Medical is offering complimentary continuing education courses. The courses below are available online at no charge from Thursday, October 1 – Saturday, October 31, so be sure to mark your calendar!

OB US Chorionicity & Amnioncity

In this course you will learn how to evaluate for polyhydramnios and oligohydramnios. This course will also explain the different types of twins, how to locate key landmarks that help differentiate twin types, and briefly touch on the etiology of twin transfusion syndrome.

Credit *AMA PRA Category 1™ CME*
Course Number *MME 1951*
Number of Credits *1*

OB US Basic Scan

This course walks through a systematic methodology of evaluating a second trimester fetal ultrasound. Describes some of the major types of pathology you are looking for and ruling out on this examination.

Credit *AMA PRA Category 1™ CME*
Course Number *MME 1904*
Number of Credits *1*

OB US Ovarian Masses

An overview of ovarian masses covering key criteria to differentiate benign from malignant masses. Identifies several features that make an ovarian mass most likely to be normal in a menstruating female and discusses important research and guidelines on ovarian masses.

Credit *AMA PRA Category 1™ CME*
Course Number *MME 1955*
Number of Credits *1.5*

Contrast-Enhanced Ultrasound

The goal of this course is to provide a clear understanding of the basics of Contrast-Enhanced Ultrasound (CEUS). Topics will include: contrast agents, key imaging parameters and their effects on the image, and common CEUS tools and their use.

Credit *CME*
Course Number *ULM 1500*
Number of Credits *1*
