We are pleased to announce this upcoming GE HealthCare Clinical Conversation Webinar:
[Optimizing CT Coronary Angiography \(CCTA\) in your Radiology Department.](#)

CT Departments are now taking advantage of CT Systems more often to evaluate coronary arteries relating to chest pain management. The ACC and AHA guidelines now make it more critical than ever that the images produced are accurate and of a high standard.

Webinar Agenda will cover the fundamental information that all technologists must be familiar with for this exam:

- How ECG Gating works
- Cardiac Helical and Cardiac Axial scan mode
- The ECG monitor, Electrodes and Patient setup
- Overview of Scan Setup for Traditional and Clarity CT systems.

Date: Wednesday, June 28, 2023

Time: 12:00pm CDT

Duration: 1 hour

Continuing Education (CE) Credit: 1.25

Attendees can earn 1.25 by attending the full 50-minute webinar and completing post examination.
